NOTICE REGARDING ADVISORY SCOPE OF WORK FOR THE SOUTHERN CALIFORNIA LABORERS' GENERAL PREVALING WAGE DETERMINATION

The California Labor Code requires the Director of the Department of Industrial Relations to determine the prevailing rate of per diem wages for all workers employed upon public works projects. The Division of Labor Statistics and Research ("DLSR") undertook an investigation in 2009 to determine the prevailing wage rates for the **installation of solar and photovoltaic systems in Los Angeles, San Diego and Imperial Counties**. The results of the questionnaire have been compiled and based on them the minimum rate of pay for the work in question is -- **Electricians: Inside Wiremen** for the Los Angeles, San Diego, and Imperial Counties General Prevailing Wage Determinations.

The type of work listed below, as identified in the Laborers 2006-2009 Master Labor Agreement, Memorandum of Agreement by and between Southern California District Council of Laborers and Associated General Contractors of California, Inc., Building Industry Association of Southern California, Inc. and Southern California Contractors Association, were not published or recognized for the **Los Angeles and Imperial Counties** by the Department of Industrial Relations starting with the **August 22, 2009** issuance of the Southern California Laborers' general determination, **SC-23-102-2-2009-1** and continuing with any subsequent Southern California Laborers' general determinations until superseded by the Director. The rates associated with this unrecognized type of work (solar energy installations and appurtenances thereto) **SHALL NOT** be applied or used on public works projects for the associated type of work.
